

MEET JORDAN DAVIES MECHATRONICS APPRENTICE FOR ABBOTT DIABETES CARE

Through my apprenticeship I am getting paid to learn and every day is a learning day!

Mechatronics is a branch of engineering. My current role is within the facilities heating, ventilating and air conditioning (HVAC) department. No two days are the same and I like that my job offers so much variety.

As part of my role, I am responsible for the upkeep of the plant rooms and ensuring they are well maintained and adhere to the required quality standards.

I HOPE TO CONTINUE MY CAREER HERE WITHIN THE FACILITIES DEPARTMENT.

I would like to complete a Level 3 NVQ in refrigeration and air conditioning, as this will develop my skills and assist with the workload in my department.

Being able to communicate with colleagues of all levels is vital for job completion.

Important soft skills for success

**BEING A GOOD COMMUNICATOR
HAVING ATTENTION TO DETAIL
WILLINGNESS TO COMPLETE EVERY TASK**

LEVEL 1 AND LEVEL 2 IN ENGINEERING AT COLLEGE

HOW JORDAN GOT HERE.

APPRENTICESHIP

JORDAN IS SPENDING 3 YEARS MOVING AROUND DIFFERENT DEPARTMENTS WITHIN HIS COMPANY TO UNDERSTAND THE BUSINESS
