Work Experience

Oxfordshire County Council

Oxfordshire County Council has a new Apprenticeship Hub which is managing the apprenticeship opportunities within the Council. Recognising that work experience can be a great introduction to the working world from next year, the team will also oversee all work experience opportunities. Until now, work experience has been offered on an ad-hoc, reactive basis within different departments. The Council is looking to take a more formalised approach by liaising with Career Leaders within schools to see when their work experience windows are and looking to match students with the different departments that have availability to support a young person at that time.

They are looking to support between 20 and 30 work experience students a year. If you are interested in your school being part of this new exciting initiative, please email helen.payne@oxfordshire.gov.uk who is managing the project.
